

## Curriculum Vitae for Thomas Hahn

Born on the 27th of July 1964, Pnr 640727-1490

Home address: Slätbaksvägen 21, 120 51 Årsta, tel: +46-8-722 00 12

### Degrees

2001 Agr. Dr. in Economics, SLU, Dept of Economics

1991 Master of Science in Agriculture, SLU, Dept of Economics

### Present location

Assistant Professor at Stockholm Resilience Centre at Stockholm University

<http://www.stockholmresilience.su.se>

SE-106 91 Stockholm

Tel: +46-8-674 7071 Fax: +46-8-674 7036

E-mail: [thomas.hahn@stockholmresilience.su.se](mailto:thomas.hahn@stockholmresilience.su.se)

### Previous work

Teaching Environmental Economics and Ecological Economics full time at SLU Uppsala 1992-1995, part time 1996-2000. PhD studies 1996-2000 of which one term at University of Wisconsin-Madison. Director of Studies at Centre for Transdisciplinary Environmental Research and Stockholm Resilience Centre 2004-2009. Coordinator of Stockholm Resilience Research School 2009-2010.

### Parental leave

I have four children born 1998, 2002, 2007, and 2009. I have been on parental leave for about 18 months during the years 2001-2004 and 2007-2010.

### Field of Research:

My research area is adaptive governance for resilience in social-ecological systems, focusing on institutional and organizational dynamics. My research is transdisciplinary concerning sustainable development focusing on the interplay of Ecological Economics and Institutional Economics.

### Grants:

- Multifunctional Agriculture: Harnessing Biodiversity for Sustaining Agricultural Production and Ecosystem Services (SAPES). Formas Strong Research Environments grants together with Lunds University (Henrik Smith) and SLU Uppsala (25 MSEK for 2010-2014).
- Governance and ecosystems management for the conservation of biodiversity (GEM-CON-BIO). Leader of the Swedish team (€ 206,240). EU FP6 project 2006-2008 [http://www.gemconbio.eu/partners\\_ctm.shtml](http://www.gemconbio.eu/partners_ctm.shtml)
- Research Assistant Grant by Formas 2002-2009 (four full years, extended due to teaching and parental leave).

### International collaboration:

In 2002-2006, I was team-leader for Kristianstads Vattenrike (Kristianstad Wetlands), that was approved as a sub-global assessment within The Millennium Ecosystem Assessment <http://www.maweb.org/en/SGA.SwedenKristianstad.aspx>. Besides, I was a coordinating lead author of Chapter 9 (Responses) of the Multiscale Assessment Volume. <http://maweb.org/en/Multiscale.aspx>. In 2006-2008 I lead the Swedish team for a EU-project: Governance and ecosystems management for the conservation of biodiversity (GEM-CON-BIO). [http://www.gemconbio.eu/partners\\_ctm.shtml](http://www.gemconbio.eu/partners_ctm.shtml). I also collaborate with different researchers within the Resilience Alliance ([www.resalliance.org](http://www.resalliance.org)). One term of my PhD studies was spent at the University of Wisconsin-Madison with my supervisor Daniel Bromley.

**Awards:**

Zayed International Prize for the Environment (awarded to authors of The Millennium Ecosystem Assessment)

**Recent Conferences and Workshops:**

- June 2011 Presenting a paper at the Nordic Environmental Social Science (NESS) Conference in Stockholm
- May 2010 Organizing a Workshop on “Governance for farmland biodiversity and ecosystem services”, Lund.
- Feb 2010 Workshop on “Governance and production functions for biodiversity and ecosystem services.” Odalgården, Uppsala.
- Feb 2010 Keynote speaker at a PhD School seminar with theme: “An institutional approach to the analysis of systems, systems change and transition in natural resources”. Brussels, Belgium.
- Jan 2010 Presentation at workshop for Strong Research Environment, SLU Uppsala.
- Nov 2009 Kick-off workshop for new Formas Strong Research Environment project. Lund.
- Feb 2008 Organizing a small international workshop on Multilevel Governance for Sustaining Biodiversity and Ecosystem services, Stockholm.
- Feb 2007 Invited speaker at an International Workshop on Model Forests at SLU Skinnskatteberg, Sweden
- Dec 2006 Presenting at the IDGEC (Institutional Dimensions of Global Environmental Change) Synthesis Conference in Bali.
- Sept 2006 Organizing an International Workshop on Governance for Ecosystem Management at The Royal Academy of Sciences, Stockholm
- Apr 2006 Presenting at the Science Meeting with the Resilience Alliance, Kruger Park, South Africa
- Apr 2005 Keynote speaker at Lund University’s Sustainability Forum: What is the value of ecosystem services

**Membership of Boards and Committees**

- Board Member of Sveaskog AB, the largest Forest owner company in Europe (2007-)  
<http://www.sveaskog.se/Om-Sveaskog/Bolagsstyrning/Koncernstyrelse/>
- Chairperson for Swedish Economists for Sustainability, which is a branch of The Natural Step (2001-2009) (<http://www.ekonומרformiljo.se/>)
- Associate member of The Resilience Alliance (2004-2008)  
<http://www.resalliance.org/705.php>
- Member of Scientific Committee for PhD Programs on Sustainability Issues at The Royal Institute of Technology at Stockholm (KTH) (2002-2008)
- Member of Advisory Board of Environmental Accounting at Statistics Sweden, 2002-2006.

**Supervision and reviews:**

- I am currently supervising four PhD students: main supervisor for Markus Larsson and Åse Johannesson and assistant supervisor for Angelina Sanderson and Björn Nykvist.
- I was assistant supervisor for Emil Sandström who defended his PhD at SLU in 2008.
- I am supervising 1-2 Masters students each year
- I have reviewed several research proposals on behalf of the Norwegian Research Council (Norges Forskningsråd)
- Reviewer for the following journals: Ecology and Society, Ecological Economics, Nature and Society, Ecosystems, Forest Policy and Economics, Environmental Science and Policy, Global Environmental Change, International Journal of the Commons, Ecological Management & Restoration, and Scandinavian Journal of Forest Research.

- Member of the evaluating committee for Dennis Collentine's PhD dissertation in December 2003 (Agraria 433, 2003, SLU).
- Member of the evaluating committee for Magnus Tuvendal's Lic thesis April 2010 (Sept of Systems Ecology, SU).

**Teaching experiences, Programme coordination and Director of Studies:**

- I have initiated and organized a new Masters Program: Ecosystems, Resilience, Governance (<http://www.stockholmresilience.org/education/secondlevelstudies/erg>), that started in August 2004. I was course leader for two of the courses within this program: *Philosophy of Science for Interdisciplinary Environmental Research* (since 2004) and *Adaptive Governance for Social-Ecological Systems* (2004-2009).
- Besides these two courses I teach regularly for other Masters and undergraduate courses at Stockholm University, KTH, and the Royal Academy of Fine Arts.
- In 2009 I was responsible for developing The Resilience Research School <http://www.stockholmresilience.org/education/resilienceresearchschool> and since then I am the coordinator of this research school.
- As Director of Studies at Stockholm Resilience Centre (2004-2009) I allocated teachers, assisted course leaders in developing new courses, wrote contracts with other departments at Stockholm University, made budgets etc.

**Recent Popular Articles and Presentations for Decision-makers:**

- Oct 2010      Lecture for the Swedish Board of Agriculture, Tranås.
- May 2010      Lecture for Short Course in Corporate Ecosystem Services Review, Stockholm.
- Feb 2009      Lecture for the Swedish Parliamentary Investigation Council on Resilience, Sustainable Development and Genuine Wealth
- Dec 2008      Lecture for the Swedish Parliament (Breakfast seminar) on GDP, Welfare, and Sustainable Development
- May 2008      Lecture on Ecosystem Services Review for Swedish Forum for Sustainable Investments (SWESIF), Stockholm
- Sept 2007      Organizing a Conference on Transition Towards a Fossil-Free Economy in Stockholm (for mainly Economists)
- March 2007    Lecture for the Swedish Parliamentary Committee for the Environment and Agriculture on Economic Growth and Sustainable Development
- Feb 2007      Lecture for the Swedish EPA on the Ecosystem Approach and Kristianstads Vattenrike
- Sept 2006      Swedish research Council (Vetenskapsrådet) Panel on Global environment and Sustainability
- Dec 2005      Lecture for the Swedish Parliamentary Committee for Rural Development on Ecosystem Approach as Rural Strategies
